

Tailored Technologies LLC is a full-service, management consulting and technology firm headquartered in NYC. The company has been providing consulting services to the business community for more than 25 years.

Founded by Richard Nathan, Tailored Technologies operated for many years as a successful consulting practice in the areas of technology resource management, business process improvement, and systems design, procurement, and implementation. In the mid-90s, the company developed a collaborative relationship with Marks Paneth & Shron LLP by providing technology consulting services to the firm's accounting and auditing clients. Based on the success of these engagements and the growing need for technology services within the accounting community, Marks Paneth & Shron fully acquired Tailored Technologies in 2000. It now operates as a wholly owned subsidiary.

Tailored Technologies LLC primarily serves the tri-state area of New York, New Jersey and Connecticut. Its client base encompasses commercial and not-for-profit organizations, ranging from hospitals to ferry operators, cooperative housing developments to retail jewelers, associations to foundations, and many more. While serving a full spectrum of businesses, Tailored Technologies counts real estate and the non-profit arena as areas of specialty.
